# VisionArt®

## RETAIL PRICE LIST

**Base unit includes a Giclee Fine Art Print, Decorative Frame with liner, mounting brackets, installation instructions and the VA-IPC Integrated Power Controller.**

### Premiere Gallerie

<b>Plasma Size</b> <i>(All sizes are the diagonal size of the viewing area and assume a 16:9 aspect ratio)</i>	<b>MSRP</b>
To 43"	7,495
44" to 55"	7,995
56" to 65"	8,495
66" to 90"	<i>Call for quote</i>
Non-Standard Size**	Additional 275
Client Supplied Art***	Additional 900

### Décor Gallerie

<b>Plasma Size</b> <i>(All sizes are the diagonal size of the viewing area and assume a 16:9 aspect ratio)</i>	<b>MSRP</b>
To 43"	3,499
44" to 55"	3,749
56" to 65"	3,999
66" to 90"	<i>Call for quote</i>
Non-Standard Size**	Additional 275

#### \*\*Non-Standard Size

All VisionArt artwork is designed, formatted and ready to be printed for a 16:9 image. If the display/image is not 16:9 due to external speakers, or for any other reason, there will be an extra charge to reformat our existing art. An aspect ratio range between 1.60 and 1.85 is considered a "Standard Size" and will not incur the reformatting up-charge. To determine this number, take the outside width of the display divided by the outside height of the display. Example:  $16 \div 9 = 1.77$ . You may be able to increase the height or width of your VisionArt to maintain the 16:9 aspect ratio; this will avoid the reformatting charge.

#### \*\*\*Client Supplied Art

Client Supplied Art is **ONLY** available in the Premiere Gallerie. Our Art Director will work directly with the end-user to secure the copyrights, manage the scanning and color proofing process, generate a proof, and create the custom VisionArt print. Please see our web site at [www.visionartgalleries.com](http://www.visionartgalleries.com), select VisionArt, and then select "Custom Art Specifications" for specific information.

## The Ren Wicks Frame Collection

The Ren Wicks Collection of Finished Corner Frames offers a framing aesthetic of unparalleled sophistication. Created for the most discriminating homeowner by Armand Lee & Company of Chicago, these exclusive profiles are handcrafted works of art in themselves, suited for modern, transitional and traditional interior designs.

The Ren Wicks Frame Collection offers “Returns” for surface mounted installations. A Return can be made of the same frame material and finish for the sides of the frame and to the desired depth. The Return will conceal the sides and produce a more professional installation.

### Ordering a Ren Wicks Frame Collection

The Ren Wicks Frame Collection can only be used with the Premiere Gallerie ONLY. The Premiere Gallerie has a welded, one piece, extruded aluminum sub frame that is capable of supporting a Ren Wicks Frame. The prices are in addition to the Premiere Gallerie product being purchased.

The Design Process is:

1. Know the diagonal size of the TV that is being covered.
2. Select a Profile-  
The Ren Wicks Frame Collection offers 9 distinctive profiles.
3. Select a Finish-  
10 different finishes are available. Custom finishes are available as well.
4. Select a liner or no liner at all-  
Five standard liners are available, Custom liners can be used as well.
5. Optional Return-  
A wall mounted plasma with a VisionArt over it looks better if the frame has a return to finish the frame to the wall. The return is the exact same finish as the frame.
6. Add all the desired parts together.

Example:

A Galloway profile, with 22K gold - Blue clay finish, black linen liner, and no return for a 43” plasma would be:

<b>Profile</b>	<b>Part#</b>	<b>Retail Price</b>
Galloway	P50	3,938
Blue clay finish	F11	3,010
Black Linen Liner	L01	630
No Return	R00	0
<b>Total</b>	<b>P50-F11-L01-R00</b>	<b>7,578</b>

Please see the following pages for the complete Ren Wicks Frame Collection pricing.

## Back Box with Integrated Cooling System,

VisionArt offers an optional metal back box that includes the VA-ICS (Integrated Cooling System). The VA-ICS has four slow speed, low turbulence fans that move 15 cubic feet of air per minute. The system includes a temperature sensor that will automatically turn the fans on at 90 degrees Fahrenheit. The VA-ICS requires that the VisionArt frame stand off the wall by at least 1/2" and uses this space to circulate air through the cavity. The VA-ICS includes a power supply, temperature sensor, ducting, and housing for the fans. The fans are preinstalled in the back box.

### Designing the Cavity

The Back Box will be designed by adding **7 inches** to the outside height and width of the plasma for the inside dimension of the recess. The depth of the recess is determined by adding the depth of the display plus the depth of any mounting brackets. **Due to the depth of the VA-ICS, the minimum depth of a back box is 5.25"**.

The Back Box is 16 gauge metal and is **NOT** structurally capable of supporting a display device.

Recessed Back Box	MSRP
Up to 43"	1,575
44" to 55"	1,785
56" to 65"	1,995
66" to 90"	Call for quote

### VA-ICS Integrated Cooling System

The VA-ICS may be purchased as a stand alone product and can be installed in the cavity without the metal Back Box. The VA-ICS requires that the VisionArt frame stand off the wall by at least 1/2" and uses this space to circulate air through the cavity. The VA-ICS includes a power supply, temperature sensor, ducting, housing for the fans, and the fans. The VA-ICS assembly is ready for installation and only requires 4 screws. **Due to the depth of the VA-ICS, the minimum depth of a back box is 5.25"**.

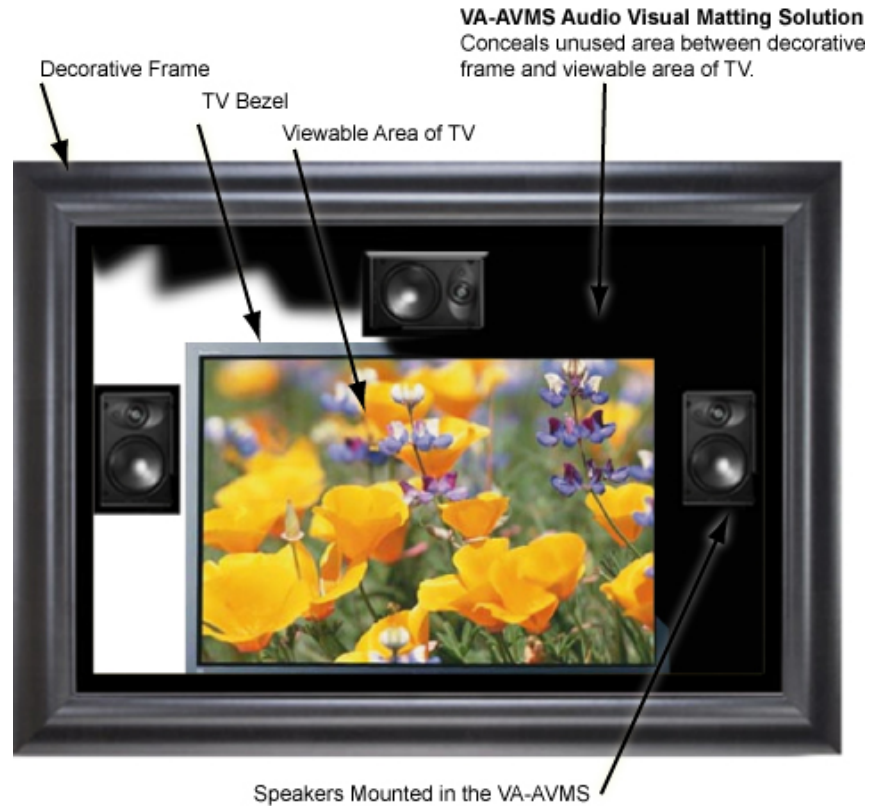

VA-ICS	MSRP
	525

## VA-AVMS Audio Visual Matting Solution

The VA-AVMS is a matting solution that masks off the unused area between the inside of the decorative frame and the viewable area of the TV and also allows art to be any square/rectangle shape that is needed. This allows VisionArt to be shaped to meet the room's proportion instead of being built for a specific TV's dimensions.

Ordering this product requires that the cutout dimensions are specified and approved. There may be up to 4 cutouts in a matte. Unless otherwise specified, all cut outs will be centered within the space available. All VA-AVMS orders will require a sign-off prior to ordering.

The VA-AVMS is powder-coated black or may be fabric-wrapped with the same fabric used for the liner. We recommend a black Matte due to the fact that it will enhance the perceived brightness and contrast of the TV.

AV Matting Solution	MSRP
For all sizes	925

## Lead-Time

All VisionArt units are custom made and require 6 weeks lead time for Décor and 8 weeks for Premiere. The Ren Wicks Frame Collection will add 3 weeks to a Premiere Gallerie order. The Recessed Back Box requires 3 weeks and can be ordered separately. Manufacturing will not begin until payment in full is received.

## Controls (Included)

Every VisionArt unit includes the VA-IPC2 (Integrated Power Controller) and momentary contact closures. The VA-IPC2 is a power current sensor that senses the power draw of the display device. When the display device is powered "on", the VA-IPC2 will raise the canvas. The canvas will automatically lower when the display device is turned "off". The VisionArt may also be controlled by momentary contact closures with discreet inputs for up and down.

## Client Supplied Frames

The Premiere Gallerie may accept a client supplied frame. VisionArt will build the Premiere Gallerie order without a frame. The client is responsible building and attaching their frame to our subframe. The subframe is 2-1/2" wide made from 1/4" thick aluminum extrusion that is welded into a solid subframe and is ideally suited for attaching a client supplied frame. The subframe will have the art, motor, tube, installation mounting brackets, and controller. VisionArt will provide the inside dimensions for the client supplied frame after the unit is ordered.

## Size Ranges

Every VisionArt is custom made for your needs. The smallest VisionArt possible is 13" wide (not diagonal) and the largest image size we can print is 46" x 20'. An image larger than 66" diagonal is a custom unit and will require a custom quote. Any display smaller than 43" diagonal will be priced at "Under 43" pricing, and may incur a non-standard formatting fee if the aspect ratio is not 16:9. VisionArt is not limited to concealing display devices, it can be manufactured to conceal wall safes, cabinet speakers, and equipment racks.

## How to Place VisionArt Premiere & Décor Gallerie Orders

Authorized resellers must place all orders on our website [www.visionartgalleries.com](http://www.visionartgalleries.com)

It is the reseller's responsibility to verify that all dimensions are correct. The order confirmation form has all the dimensions necessary to design a VisionArt. All sales are final.

The lead-time for all orders is **6 weeks for Décor and up to 8 weeks for Premiere**, from receipt of full payment in our office.

Shipping rates from California are calculated as follows:

- \$200 if shipped East of the Mississippi River
- \$150 for shipments between Colorado and the Mississippi River
- \$100 for shipments West of Colorado

This is for UPS Ground shipments.

Ordering a Back Box will require shipping two separate items, even if it is part of the same order, and will double the shipping charge.

## **LIMITED WARRANTY**

This is a LIMITED WARRANTY as defined by the U.S. Consumer Product Warranty and Federal Trade Commission Improvement Act.

### **WHAT IS COVERED UNDER THE TERMS OF THIS WARRANTY?**

**SERVICE LABOR:** VisionArt will pay for service labor by an approved VisionArt service center when needed as a result of manufacturing defect for a period of one (1) year from the effective date of delivery to the end user.

**PARTS:** VisionArt will provide new or rebuilt replacement parts for the parts that fail due to defects in materials or workmanship for a period of one (1) year from the effective date of delivery to the end user. Such replacement parts are then subsequently warranted for the remaining portion (if any) of the original warranty period.

### **WHAT IS NOT COVERED UNDER THE TERMS OF THIS WARRANTY?**

This warranty only covers failure due to defects in materials and workmanship that occur during normal use and does not cover normal maintenance. This warranty does not cover failure resulting from accident, misuse, abuse, neglect, mishandling, misapplication, faulty or improper installation or setup adjustments; improper maintenance, alteration, improper use of any input signal; damage due to lightning or power line surges, spikes and brownouts; damage that occurs during shipping or transit; or damage that is attributed to acts of God. In the case of remote control units, damage resulting from leaking, old, damaged or improper batteries is also excluded from coverage under this warranty.

**CAUTION: DAMAGE RESULTING DIRECTLY OR INDIRECTLY FROM IMPROPER INSTALLATION OR SETUP IS SPECIFICALLY EXCLUDED FROM COVERAGE UNDER THIS WARRANTY. IT IS IMPERATIVE THAT INSTALLATION AND SETUP WORK BE PERFORMED ONLY BY AN AUTHORIZED VISIONART DESIGNER TO PROTECT YOUR RIGHTS UNDER THIS WARRANTY.**

### **RIGHTS, LIMITS AND EXCLUSIONS:**

VisionArt limits its obligations under any implied warranties under state laws to a period not to exceed the warranty period. There are no other expressed or implied warranties. VisionArt also excludes any obligation on its part for incidental or consequential damages related to the failure of this product to function properly.

### **EFFECTIVE WARRANTY DATE:**

This warranty begins on the effective date of delivery to the end user. For your convenience, keep the original bill of sale as evidence of the delivery date.

### **TO OBTAIN SERVICE, CONTACT YOUR VISIONART DESIGNER:**

Repairs made under the terms of the Limited Warranty covering your VisionArt product will be performed at the location of the product, during usual working hours, providing location of product is within normal operating distance from a VisionArt Authorized Service Center. If, solely in VisionArt judgement, location of product to be repaired is beyond normal operating distance of the closest VisionArt Authorized Service Center, it is the owner's responsibility to arrange for prepaid shipment of the product for repair. These arrangements must be made through the selling VisionArt Designer. If this is not possible, contact VisionArt directly for a return authorization number and shipping instructions. VisionArt will return product "transportation freight collect" in the United States.

### **ADDITIONAL INFORMATION:**

To locate the name and address of the nearest VisionArt' Authorized Service Center, or for additional information about this warranty, please call, write, or visit our website: [www.visionartgalleries.com](http://www.visionartgalleries.com)

### **SHIPMENT INSPECTION**

It is the Reseller and/or Customer's responsibility to inspect all orders upon delivery. All freight claims must be made to the shipping company within 30 days of receipt.
