

Product Cut Sheet: Chain Operated Clutch Specialty Bracket Accessories

Center Support Bracket for Clutch Shades:

This specially designed bracket joins two separate roller shades together. It allows operation of two independently operated shades with two controls chains. The right chain operates the right shade, while the left chain operates the left shade. This center support bracket uses two recessed spring loaded end caps to reduce light gap between the two separate roller shades.

Note:

- Available for use with both 1 1/2" and 1 3/4" clutch mechanisms.

Minimum Width: 16"
Maximum Combined Width: 192"

Multiple-Band Clutch Roller Shade:

This type of roller shade joins two fabric bands and allows operation a single control chain. This intermediate bracket uses a sealed roller bearing with recessed end caps to reduce light gap between the two fabric panels.

Note:

- Due to weight constraints, a maximum of two shades bands can be controlled from a single control chain.
- Available for use with both 1 1/2" and 1 3/4" clutch mechanisms.

Minimum Width: 16"
Maximum Combined Width: 96"
Minimum Height: 8"
Maximum Height: 96"
